

German aerosol production in 2016...

According to German aerosol association Die Industrie-Gemeinschaft Aerosole e.V. (IGA), there were 1.297 billion aerosol cans filled in Germany in 2016, compared to 1.33 billion in 2015, for a decrease of 2.5%. Categories were broken down into aluminum and steel containers; IGA indicated that aerosol products filled in glass and plastic containers represent such small numbers that they can't be reported in detail.

Production of aerosols in the largest market segment, Personal Care, totaled 860 million units in 2016, with the largest subcategory, Deodorants/Antiperspirants, accounting for almost half (422 million). The second largest category, Hairsprays, numbered 273 million.

Paints & Varnishes (including automobile use) was the second largest category, with 88 million units, edging Household Care into third place with 84 million. Air Fresheners accounted for 41 million of the Household Care total, with Shoe/Leather Care products following (16 million units). SPRAY

Figures in '000 units	PRODUCTION Aluminum cans (1)	PRODUCTION Steel cans (2)	TOTAL PRODUCTION (1) +(2)
