

Brazilian aerosol production zooms almost 13%

Increases across all categories...

The Brazilian Aerosol Association (Associação Brasileira de Aerossóis e Saneantes Domissanitários or ABAS) recently released its 2018 aerosol statistics for Brazil. The report revealed total aerosol consumption was over 1.36 billion, revealing a growth of 12.8% from 2017.

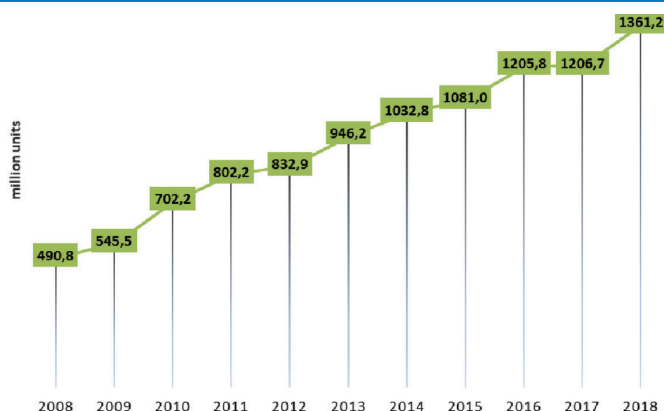

Personal Care dominated the product categories with 58% of the market; Deodorant fillings continue to dominate the Personal Care category. The Insecticides category followed at 18% with Household Care another major player at 10%.

Brazil imported 23% of its aerosols in 2018 while it produced 77% of its aerosols within its borders. This is an increase over the 75% of aerosols produced at home in Brazil in 2017. **SPRAY**
