

# Thailand aerosol production tips up...

*Gains were made in tinplate production and household care*

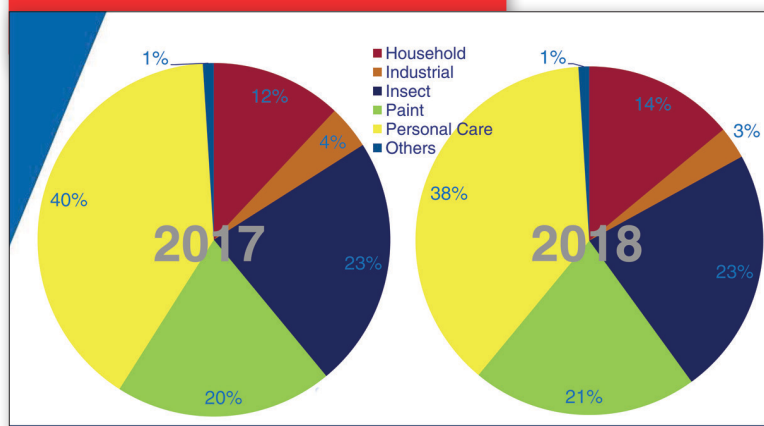

The Thai Aerosol Association (TAA) released figures for 2018 aerosol production in Thailand at its General Meeting in April. Total aerosol production last year was 299.8 million cans, up slightly from 299.6 million in 2017. Tinplate steel accounted for almost 187.24 million cans, while aluminum cans numbered 112.74 million. Compared with 2017, aerosol fillings in Thailand grew 0.07%.

The Personal Care product category was the most popular at 38%. Insect Sprays accounted for 23%, followed by Spray Paint at 21%, Household at 14%, Industrial at 3% and Others at 1%. The Household category was up 2% over 2017, while Personal Care was down 2%.

The TAA now has 26 members with the addition of two new member companies: Recycle Engineering (aerosol

recycling and disposal) and Honeywell Electronic Materials (manufacturer of hydrofluoroolefins [HFOs] and performance fluids).

The head of the organization, Masaomi Takahashi from Thai Daizo Aerosol, was re-elected as TAA Chairman. **SPRAY**
