Aerosol production in The Netherlands grows more than 2%...

According to the Dutch Aerosol Association (NAV), production of aerosol products in The Netherlands continues to rise. More than 411.64 million aerosols were filled in 2018, a 2.5% increase over the 401.48 million filled in 2017.

Although production was slightly down in 2018, Air Fresheners continued to dominate overall production, with 156.57 million produced in The Netherlands. Only slightly more than 5.3 million were consumed domestically, with almost 151.29 million products exported.

The Personal Care category saw the most growth (10.7%), followed by Furniture Cleaners & Waxes (7.1%), Lacquers & Paints

(6.2%) and Pharmaceutical/Veterinary/Other (4.8%).

Container Production in The Netherlands (in millions of units)

Type	2018	2017	% change
