

German aerosol production in 2019...

According to German aerosol association Die Industrie-Gemeinschaft Aerosole e.V. (IGA), there were 1.107 billion aerosol cans filled in Germany in 2019, compared to 1.19 billion in 2018, for a decrease of almost 7%.

Categories were broken down into aluminum and steel containers; IGA indicated that aerosol products filled in glass and plastic containers represent such small numbers that they can't be reported in detail.

Production of aerosols in the largest market segment, Personal Care, totaled 705 million units in 2019, with the largest subcategory, Deodorants/Antiperspirants, accounting for more than half (412 million). The second largest category, Hair sprays, numbered 173 million.

Paints & Varnishes (including Automotive) was the second largest category, with 97 million units, edging out Miscellaneous (which now includes Food Products) in third place at 83 million. Industrial & Technical ranked fourth with 78 million. **SPRAY**

Germany 2019 Aerosol Fillings			
Figures in '000 units	PRODUCTION Aluminum cans	PRODUCTION Steel cans	TOTAL PRODUCTION
PERSONAL CARE	580,000	125,000	705,000
Deodorants/Antiperspirants	412,000	0	412,000
