

Mexican aerosol production sees gains in 2020...

Growth rides on home care, insecticides and paint fillings

Mexican aerosol production saw a 1.28% gain in 2020 over the previous year, according to data from Instituto Mexicano Del Aerosol, A.C. (IMAAC), continuing a trend of growth over the past several years. There were 658.50 million units produced in the country in 2020, compared to 650.15 million units in 2019.

Personal Care had the largest share of fillings with 404.46 million units, down 1.65% from the year before. Household Care products, at 70.15 million units, saw impressive growth of 41.83%. Pharmaceuticals saw an increase in 2020 to 7.04 million units (1.41%) while Industrial products fell slightly (0.30%) to 26.83 million units.
