South Africa
2024 aerosol fillings

Provisional report shows robust production...

South Africa saw sales of 339.615 million aerosol products in 2024. Of that amount, 324.471 million were filled domestically, 13.305 million were exported and 28.449 million were imported, according to The Aerosol Manufacturers' Association of South Africa's (AMA) provisional statistical report.

Personal Care was the largest category, at almost 50% of total consumption. This was followed by Home Care (37%) and Other (13.2%). SPRAY
